

PUBLICATIONS & CONFERENCES/TALKS

Keeping a correct record of all publications and conferences/talks is important in an academic career. There are **2 main channels** to keep track of them: the CMM website and the UGent Biblio. The first one is important to present our work to the scientific world, the latter is very important since it is used as an evaluation for i.e. BOF-applications.

CENTER FOR
MOLECULAR MODELING

All details concerning publications & conferences should always be passed on to Samuel Galle (samuel.galle@ugent.be).

You add your manuscripts to the CMM website **yourself and e-mail Samuel about the (new) status of your publication at every step**

Samuel adds publications in final form to the UGent Biblio. Please check once in a while whether your UGent Biblio is correct.

When you present at a conference or give a talk somewhere (also when it is i.e. during a lab visit), we follow the same procedure

Tip
